

WHAT IS ADVISOR?

EveryData Advisor is a platform for the automated management of your portfolio activities.

It significantly reduces or eliminates the effort needed to evaluate existing portfolios of clients.

It automatically applies custom-made, built-in strategies for various activities, e.g. sales, debt collection, etc.

EVERYDATA ADVISOR

ENABLES YOU TO:

-  **Optimize your collections**
-  **Gain value from existing portfolios**
-  **Manage risks**
-  **Build customer relationships**

EVERYDATA

ADVISOR

HOW IT WORKS

- Immediate start with SaaS model, no IT involvement from financial institution side
- Global financial institution's processes remain unchanged
- All customizations are done on EveryData

Our risk management expert will guide you on strategic usage and will adopt the strategies for your specific needs.

When details are agreed, you are given your own virtual Advisor room containing your strategies.
